Helpless and Hopeless Fight—

Toronto, Ont., April 19.—A disastrous fire is raging on King, Wellington and York streets in the business section of the city. At 9 o'clock the flames apparently were beyond control.

BULLETIN.

Toronto, Ont., April 20.—At 4:45 Wednesday a.m. the fire is burning itself out in Bay street, total loss fully \$10,000,000.

Through Wholesale District.
Toronto, Ont., April 19.—Fire swept through a section of Toronto's wholesale business section tonight making a loss estimated at \$10,000,000. The fire started in Wellington street about 9 p.m. in less than an hour the whole block was in flames and the fire was beyond control. Several other companies responded to a call for assistance.

It was believed at 11 o'clock the fire was under control, but a sudden shift of the wind fanned it and three more blocks were soon ablaze. The firemen made a gallant fight but efforts at midnight seemed fruitless. Up to this time \$1 firms had been burned out. At 1 o'clock Wednesday morning the fire was sweeping Bay street toward the lake.

Clean Sweep.
The fire swept all buildings on Wellington street from Currie's warehouse, where it originated, to the Queen's hotel. The thick fire walls of the hotel and concentrated efforts of the firemen stopped the flames, but, meantime the fire swept across the street wiping out the block from Bay street west to the National club. A shift of the wind sent the fire down Bay street, destroying every building on both sides of the street to Front street. Nothing could resist the force of the flames as they swept down Bay street towards the lake and the firemen fought back the fire from the side streets, confining the fire some to the one thoroughfare wherever possible.

Use Dynamite.
Several frame buildings which threatened to cause a spread of the fire were blown up with dynamite.

At 2 o'clock Wednesday morning the fire seemed confined to the street west to the water front.

Burning at 3:15 a.m.
3:15 a.m.—The fire has been under control but there is still danger of it spreading further to the west.

SHORN OF HIS AUTHORITY ALEXIEFF STEPS OUT

Viceroy in the Far East Has Sent His Resignation to the Czar.

HAD BECOME A MERE FIGUREHEAD

Nicholas Was Displeased and Had Purposely Snubbed Him.

St. Petersburg, April 19.—Viceroy Alexieff has applied by telegraph to the emperor for the relief of his position of viceroy in the far east. It is expected the request will be immediately granted.

While no official announcement has been made there is reason to believe the above statement is correct.

The immediate cause of the viceroy's application is reported to be the appointment of Skrydloff, one of Alexieff's strongest enemies and sharpest critics, as a successor to the late Makaroff in command of the Russian navy in the far east.

Skrydloff had an interview with the emperor today and discussed with his majesty the question of his (Skrydloff's) relations with Alexieff.

Relieving from command of Alexieff would not surprise intelligent observers of the far eastern situation who are familiar with the gradual change in the emperor's attitude toward the viceroy and Makaroff, who represented the militant or advanced element which was anxious that Russia should remain in Manchuria.

Alexieff and Bezobrazoff were two of an advisory committee appointed by the emperor and soon after the appointment of M. Witte, who had opposed the policy of Alexieff and Bezobrazoff, was relieved of his portfolio as minister of finance.

It was through his new official advisers that the emperor conducted negotiations with Japan, and it is claimed they misjudged the temper and purpose of the Japanese and left the emperor in ignorance in preparations for war which Japan was making and the rising spirit of Alexieff.

After the first reverse at Port Arthur Vice Admiral Stark was succeeded by Makaroff, notwithstanding Alexieff had suggested the names of two others for the post.

At this time a special Ukase was issued making Makaroff absolutely independent. A second blow was given Alexieff when the czar appointed as commander-in-chief of the army in Manchuria, Kurapatkin, who sided with the foreign minister and Witte.

Against the policy of Manchurian annexation and stated to the Chinese minister to Russia, that the whole trouble originated with Alexieff. The

ALL BOOKS TREATED ALIKE.
The United States supreme court has fully sustained the rulings of the postoffice department in excluding periodical books from the mails at newspaper rates. No greater fraud was ever perpetrated on the government. They were carried at one cent per pound instead of eight, the rate charged for regularly bound books.

Former Postmaster General Smith interpreted the law against these fakes and a great howl arose and a sharp contest was made against his ruling. But the highest court has sustained him and it is now presumed that the department will now insist on keeping to go by mails all stuff that ought to go by freight—at least ought to pay a fair price for the use of the mails. An important principle of the decision is that the Postmaster General must decide for himself whether any specific publication comes within one or the other of the classes of mail matter fixed by the law.

This seal book fraud was in large part responsible for the deficit in the postoffice department. But for the increased cost incident to rural free delivery the department would even now be fully self-sustaining.

fortunes invested in Wall street paper have been wiped out and hundreds of thousands of people who had invested in corporation securities have suffered embarrassing losses. Fortunately, however, the demoralization did not spread to any extent to legitimate commerce and industry, and ordinary business has gone on quietly, without trouble except in borrowing from the banks or in securing renewals of loans. The banks were successful in trimming their sails before the storm broke, and they have learned a lesson that will probably make them more cautious in the future in their dealings in the "products" of Wall street. Business men will be able to make their plans for the coming year without the fear of panic conditions arising to confound them, and we shall undoubtedly experience a sound, healthy volume of business.

to the great benefit of his party. Just now his words of wisdom among the warring elements should be heeded. A man should be chosen for governor upon whom all can heartily unite. The republicans of the state have little concern whether this man or that is nominated. They want a candidate big enough to lead his party to victory and big enough to be governor when elected.

Senator Bailey of Texas, calls his service an "iridescent dream." He should be more original. The late Senator Ingalls of Kansas joined that phrase when Bailey was in knee pants playing marbles in Texas. This thing called civil service may not be what Bailey calls it but in many respects it is a translucent fraud. The way it works it is often a shield for incompetency or inefficiency. It is seldom that the hot headed Texas senator is right but in this case he is "warm."

PARKER'S PARTY.
The declaration of the late President McKinley that republican policies were bringing to the South against her will an era of unexampled prosperity continues to be applicable. The republican party is becoming more and more an American party and the business men of the South, having regard for the development of the lumbering interests, the cotton manufacturing and cattle raising will not consent to interference with the tariff, and would not tolerate interference with the recognized soundness of our finances. The democracy is at sea not merely from lack of issues, but because of the things the republican party has accomplished. The present situation recalls the story of the old Bourbon democrat in Kentucky engaged in a political debate, who was pressed by his whig opponent for an elucidation of his platform, a statement of his principles and a declaration as to the things for which he stood. He frankly admitted that he 'stood for nothing' and was again everything, and in his peroration he magnified the personal qualities of his candidate of whom as a thrilling climax, he said, "Thank God, he hasn't no record now!" The republicans in the next campaign will win a splendid victory under the banner of Roosevelt and the record of the republican party, while the banner under which the opposition will go to defeat will be "Our party hasn't no principles, and our candidate hasn't no record now."

THE FIRE DRILL.
There was a fire in a New York school the other day, on the second floor which did \$200 worth of damage. The children had been accustomed to a fire drill. The teacher who discovered the fire told her associates of it and two of the young women went to plan and struck up the usual march. There were fifteen hundred children in the building and they were all out in good order, in less than seven minutes.

The allegation made at the time of the Iroquois Theater fire that the loss of life occurred mainly because the audience was largely women and children, has been definitely disproved several times, and the success of fire drills is part of the evidence which shows that audiences made up of women and children are not necessarily difficult to manage.

How much attention is given in Decatur schools to the thought of safety now that the Iroquois horror has passed out of mind?

Bloomington for the first time in many years is a democratic city. The mayor elected one year ago and a majority of the council since the election Tuesday will be democratic. McLean county has a democratic sheriff. The Gibraltar of republicanism appears to have been stormed and captured. Still it will be safe to put McLean down for 2,000 republican majority next fall. The present lapses are purely local.

Nineteenth Congressional Convention.
A republican convention for the nineteenth congressional district is hereby called to meet at Clinton, Wednesday, May 18th, at 12 noon, for the purpose of nominating a candidate for member of congress, to select a congressional committee and to transact such other business as may properly come before it.

The basis of representation in said convention shall be one delegate for each 300 votes cast for the republican candidate for congress in each of the counties composing the district at the election in 1902. On this basis each county is entitled to the following delegates:

Counties	Vote	Del.
Champaign	4907	16
Cole	3870	13
De Witt	2398	8
Douglas	2137	7
Macon	4560	16
Moultrie	14147	47
Platt	2134	7
Shelby	2482	8

Total 78

Delegates shall be elected in such manner as the republican county central committee in each county may direct.

FRANK C. ROBY, Chairman.
CHARLES G. ECKHARDT, Sec.

Judge Parker is evidently saving his voice for the campaign.

"I am a democrat" Hill is again in his party saddle in New York.

People are breathless with anticipation of the first forensic encounter between McIntosh and Hunt in the council.

The fatalities among grandmothers of small boys during the coming baseball season threatens to be distressing.

Pennsylvania, though uninstructed, is still solidly for Parker. It is a sort of Macon-county-Hamlin-for-governor affair.

Ex-Mayor Ames of Minneapolis has been indicted again. Such trifles do not confuse or embarrass this municipal grafter in the least.

Overcoats and mittens, hot bricks and furs are the appropriate articles at the baseball games. The 'ice cold' commodities are out of style.

With the mercury hovering around the freezing point it is rather singular that "fans" should be so much in evidence at the baseball games.

Surely there ought to be a let up in this winter weather. The baseball season upon us and a circus next Saturday should make the weather man relent.

Putting a few fines on the festive despoilers of property at Fairview and the University may have a tendency to improve the eye sight of young men until they can see the line between fun and crime.

The Illinois democrats are promising themselves a good warm time in their state convention over Hearst. With Theodore Nelson and Dunlap on one side and Harrison and Hopkins on the other there is no doubt that the fun (cash) will fly.

There is a calm which is said to precede a storm. Is that the thing that is now suggesting the state convention to be nominated? In Chicago Lowden and Deane are having a wordy encounter but elsewhere the storm is a calm and the waves thereof are still.

The "Tadpole ditch" commissioners failing to get the \$150,000 from the state, are attempting to sell portions of land adjacent the defunct canal. Their "busted" treasury needs the money. The board should disband. The state could fill up the ditch and make a public road of it.

Senator Tillman's physician orders him not to do any public speaking. Can't something be done for this doctor to show the gratitude of the public. Why not put Tillman on for vice president with Parker. A speechless campaign on the part of the democrats would bode no good to the republicans.

The national house of representatives has passed a bill making one state out of Arizona and New Mexico to be known as Arizona and one state out of Oklahoma and Indian Territory to be known as Oklahoma. It is doubtful if the senate passes this measure at this session. In fact it is almost certain that the statehood will be sover untill next winter Congress still threatens to adjourn by the 28th of April.

Six years ago today the United States declared war against Spain. The real cause was the destruction of the Maine two months before. The time intervening shows the patience and long suffering of President McKinley and his wisdom in preparing for the conflict. The war with Spain has completely changed the attitude of other nations toward the American republic. Before we were held in contempt as pig raisers and corn growers. Now Uncle Sam's slightest nod commands universal attention. Every country knows the immeasurable strength of the Western government. American diplomacy dominates the world because it is ever based upon the thought of what is right. Six years have served to transform this nation from a mere big one into one of commanding influence in the world's dealings.

Five years may seem abundant time in which to build the interurban from Decatur to Champaign. It is much more than sufficient if the money markets continue at their ease. A slight stringency might, however, make it difficult to secure the million or two necessary to put this road on its feet. It does not seem necessary to make the validity of the entire franchise depend on the eastern extension. The line to Springfield will be completed during the coming summer and the cars running to the capital and south. Decatur has great interest in securing as many interurbans as possible. The business interests will be vastly benefited. Public rights should be guarded but this does not mean that it is necessary to put obstructions in the way of the interurbans.

Congressman Hearst has bought all the hotel accommodations at St. Louis during the convention. They took the meeting away from Chicago to dodge Hearst but the first thing they run against in St. Louis is his hotel Gibraltar. They can't dislodge him. The anti-Hearst men might as well provide a dry good box. He will need it to sleep in. Hearst pays the freight. His nerve is of a specially strenuous breed. His audacity is to be admired, it is so gigantic.

Whatever may be said of the democrats elsewhere there are some in Macon county who are up to the latest frills in modern activity. The Wheatland township primaries were held by telephone. Mr. T. W. Smith chairman placed himself at the exchange at Elwin called up democrat after democrat and received and registered his choice of delegates. Knowing all his party friends he could easily do this. The roads were almost impassable and each man sat in his own or neighbor's home and cast his vote as well as though he had gone to a common voting place.

It is the verdict of the medical world that cancer is more destructive than consumption. Doctors further agree that its cause and cure are utterly unknown. It rears its hideous head with no fear of being vanquished. Cancer and death are synonymous terms. They follow as cause and effect. Before this disease medical skill confesses itself baffled. Possibly some day a remedy may be discovered.

President Smith denounces plural marriages and threatens excommunication. Wonder what brought this 21 times bigamist to such a position? Why does he not cut loose from Nee 2, 3, 4, and 5 and set a good example? His union to No. 1 was the only real marriage. The others were bigamous and criminal. Unless he dissolves the matrimonial merger his polygamous following have a perfect right to say "Get thee behind me, Satan."

Senator Cullom, the sage of Illinois republicanism, counsels party harmony. For many years he has been a peacemaker among rival elements. His wise counsels have usually prevailed.

A man yoked himself up with a calf. The calf ran away with him. While going at better speed some one called to the man to know where he was going. He replied "D—d if I know, ask the calf." Just now if you would know what the democratic candidate for president, Judge Parker, thinks on public question you must ask the calf (David B. Hill).

This is the regular season for good roads conventions. The state meeting will be held at Springfield May 3 and 4. The way to have good roads is to make them like Berlin Burrows and Charles Green have done. Conventions rarely build good roads. People feel more keenly the need of them when the mud is axle deep than they do at tax paying time.

Springfield appears to be trying to involve its interurban franchise in a legal tangle. The mayor delayed passing upon the ordinance to a time when it was claimed on one side that it was effective without his signature. On the other this was denied. Here is a chance for a big lot of litigation.

One thing is fortunate about the raw cold of the past week. It has "smeared" the rain away and let the farmers get a chance to sow oats. When this is done the corn plowing and planting can go a little more leisurely as there is more time.

Next Tuesday April 26, is the 85th anniversary of Odd Fellowship. It will be observed all over this country by the great fraternal organization which has grown from the small beginning made at Baltimore by Thomas Willey and his two companions April 26, 1819.

Yesterday was the anniversary of the first bloodshed of the Civil War. Federal troops passing through Baltimore were attacked by a mob. From that day on there was much struggle and strife and many a man north and south gave his life as a sacrifice for his convictions and for his country.

Tammany men were good Indians at the democratic convention. They came into camp when Hill offered them a delegate and an alternate to the national convention. There is a suspicion all along that that was about as they wanted. They opposed Parker as the best way to get it.

The democrats arranged to have Bourke Cochran make a speech against the pension ruling so that this could be made an issue in the coming campaign. Republicans welcome this issue with open arms. With opposition to the Panama Canal and war on the old soldiers Roosevelt's election ought to be practically unanimous.

Bourke Cochran is for Cleveland for president. In 1892 Mr. Cochran made a wonderful speech in the Chicago convention to stem the Cleveland tide but it could not be done. In the case of Cochran it may be said that wise men change their minds or possibly conditions change them for them.

There is not always so much unanimity between a sovereign and his subordinate as exist with the czar and Alexieff. The commander wanted to quit and the czar has expressed a willingness to let him do so.

The city election was a mere zephyr as compared with last year's cyclone. One year hence there may be more of the elements of a tornado again. A mayor will then be elected.

St. Louis promises the fair finished when the opening day comes one week from next Saturday. 14,000 men are in a mighty struggle to get everything completed.

The chairman of the democratic national committee, James K. Jones, says he does not know Judge Parker. The New York jurist appears to have qualifications which had escaped notice.

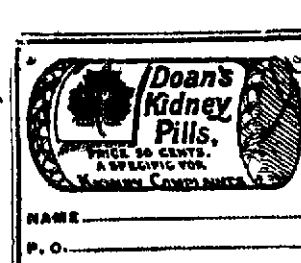

A good many states have men who are nominated for vice president. Other

Mrs. S. M. Trump, widow, of 438 North Church street, says: "For ten long years I suffered from kidney ailments. I tried all kinds of proprietary medicines, and consulted numerous physicians, but received little relief and less benefit. I also suffered from a weakness of the controlling faculties of the kidneys which was often most annoying. Seeing Doan's Kidney Pills so widely advertised and so highly recommended, I procured a box at H. W. Bell's drug store and began using them at once. The first box did me a great amount of good, and I have been using them since. They have benefited me so much more than any other medicine I have used that I most heartily recommended them. I can also refer to a number of my friends who have been cured through their use."

Democratic simplicity is manifestly wanting. The late Iroquois club dinner in Chicago was a \$10-a-plate affair. Mr. Bryan and Mr. Cleveland both sent regrets. Possibly did not have the price.

If the democrats want a short platform they might adopt the expressed views of Judge Parker on public questions. The platform would then be the soul of wit.

Russia claims that her war ships are better than those of the United States. Possibly but Spain will testify that the American man behind the gun is a sure shot.

Congress is now asked to make an appropriation to modernize the "new" Chicago postoffice building. Decatur is still waiting to see some dirt fly on its proposed post office site.

The Chicago car barn thugs are to hang next Friday. There will be a sign of relief when these demons are underground.

New York presents Parker. As goes New York democracy so goes the party in the nation. Parker will be nominated.

New York republicans are dwelling together in unity. Platt, Odell and DeWitt are delegates at large to the Chicago convention.

There seems no hope for republican success in Missouri. Hence it is most gratifying to think that Folk will be the next governor.

A good many states have men who are nominated for vice president. Other

states have many that are unmentionable even for a higher office.

Should the present winter continue it may become popular to organize sleighing parties in Missouri for the opening of the fair on April 30.

When you look at the names these Japanese and Russian war vessels must carry it is a wonder that any of them can be kept afloat.

Mr. Bryan is opposed to Parker. Possibly his experience with the courts in Connecticut has soured him on the New England judiciary.

Mr. Bryan is still for the platforms of 1896 and 1900. Even Uncle Adlai in his ancient dream before the Iroquois club asked for fresh issues.

How would Hobson do for one who has been hurt in trying to do something to others? He tried to do a plenty to Congressman Bankhead.

Hero Hobson probably endorses the scriptural truth "A prophet is not without honor save in his own" congressional district.

Anyhow it will not be possible to misquote me in the coming campaign. I have never said anything.

—ARTHUR B. PARKER.

This is the winter of discontent to the ice man but the coal man wears a grin that won't come off.

Bishop Spalding says that strikes are what Sherman said war is—hell.

Overcoats are now in style for garden spending parties.

Parker may not have a record but Bryan is against him. That is something.

Young Rockefeller says that money is not worth struggling after. How does the son of 200 millions know?

Judge Parker has no record. Dave Hill can spare him a small section of his and still have a plenty left.

The proper abbreviation for Illinois is Ill., and not Ills. If any one should ask you.

The Parker boom appears to have taken all the wind out of Olney's inflated prospects.

The weather man is trying to be a good fellow by promising that it will be warm during August.

A prophecy—Before the democratic national convention meets there will be no on but Parker a candidate.

The democratic victim this year ought to be eligible to Carnegie's hero fund.

Russia has put another of its battleships in soak.

Life in our navy appears more hazardous in peace than in war.

WHAT IS THE LIMIT.
Of the Price to Be Paid for Illinois Land.
The high mark for the price of eastern Illinois farm land was reached when the forty-six acres of the Jacob Rogers estate, located near Hume, northwest of Paris in Edgar county, was sold to C. O. Rogers for \$201 per acre. The land is as fine in quality as any in the state of Illinois.

these troubles. Startling improvements have recently been made in the treatment of heart disease. The new digitalis was the only remedy employed, though it injured many cases and cured none. Dr. Miles, the Specialist in heart and chronic diseases, finds it necessary to employ eighteen heart remedies to cure with certainty the many forms of heart trouble. He has discovered the unusual curative powers of his new treatments. Dr. Miles will send a \$3.75 course free. Every sufferer from short breath, palpitation, oppression in chest, irregular pulse, palpitation, smothering spells, puffing and wheezing, dropsy and edema, enlarged liver, lungs, kidneys, bladder, stomach, bowels, or prostate gland, after he had taken the Special Treatment, writes: "I feel as well as I ever did. If I ever had another attack of heart trouble I shall write you at once, for no other doctor can treat me."

Chas. E. Adams, 2714 Magnolia, Ave., Chicago, says: "Your Special Treatment cured me of heart disease of 18 years standing after several reputable physicians of this city failed."

Says Colorado Governor is No Friend

the federation of labor, President Mitchell arraigned Governor Peabody on the Colorado labor troubles. He challenged the oft-repeated assertion of the governor that he had exhausted every effort to bring about settlement of the strike by bringing the opposing forces together in conference. Mitchell declared Peabody was "no friend of government," and "no friend of law and order."

New York, April 18.—Legal representatives of the Harriman party were in conference with the banking interests this afternoon on the decision of the Northern Securities case in St. Paul. Labor representatives of the latter interests said:

"We intend to continue this action. Our lawyers have not yet decided whether or where to make the next move. It may be in New Jersey or in this state."

COAL COMBINE NOW

Is Likely to Be Investigated

Washington, April 18.—Representative McNary, of Massachusetts, today introduced a resolution instructing the secretary of commerce and labor to investigate the causes for high price of coal in the United States since January, 1903, whether the price was controlled by a combination and if so not.
